WEDNESDAY, AUGUST 8, 1855.

THE ELECTION.—Our returns indicate the election of the whole American State ticket by a large majority. We have but few returns from the Congressional districts. In our own district Col. Marshall is elected by over 2,500 majority. The majorities are as follows:

	Marshall.	Preston.
Louisville city.....	1,664	
Jefferson county.....	299	
Shelby.....	740	
Henry.....		90
Oldham.....		58
	2,703	148

Marshall's majority..... 2,555

In the Eighth district, Dr. Marshall, American, is undoubtedly elected.

In the Fifth district (Bardstown) Jewett, Anti, is probably elected.

In the Tenth district, Swope, American, is probably elected.

We believe that we have also carried the 3d, 4th, and 9th districts.

The official vote of Louisville and Jefferson county, as well as various returns from other parts of the State, will be found in another column.

NEEDLESS ALARM.—We learn that some of the Germans, alarmed for their safety, have fled to the country. There is not the least necessity or reason for this course. Order is restored; every one is satisfied; and none but the guilty have anything to fear. Those who were guilty of firing on our citizens will be punished by law if they can be found out and identified, but the innocent and peaceable of all parties and all nations will be protected from harm.

There was a grand evacuation yesterday. On Fifth street, below Main, and also in the lower part of the city many of the Irish families residing there left, notwithstanding the assurance of the Mayor that they would be protected. About 300 left on the mailboat for Cincinnati.

A letter from Flemingsburg informs us that there has been 21 deaths from cholera in that place, chiefly among the Irish. The disease was subsiding.

TENNESSEE.—Johnson (Anti-American) is no doubt elected Governor of Tennessee.

A very large number of persons are in jail.

[From this morning's Journal.]

This is one of the loveliest things ever written, and it comes from a favorite poetess, who, as her admirers will see, has added a new name to the old one that she made dear to the lovers of poetry:

[For the Louisville Bulletin.]

TO MY SISTER EMILY.

BY JULIA PLEASANT CRISWELL.

As the purple night-fall closes
Round thy chamber soft and fair
They are winking roses snowy
Through thy darkly flowing hair.
O'er thy shoulders white and stately
They have thrown the bridal veil;
And thy cheek, so careless lately,
Blushes now, and now grows pale.
Thus they lead thee, sweetly blushing,
Like some bright beclouded star,
Through her gossamer draperies flushing
Radiant o'er the Heaven afar.
Yes, they lead thee to thine idol—
To his brave and manly side;
And a mortal, at a bridal,
Never claimed a brighter bride.
Vowing to be thine completely
Until death the bond shall part;
Then thine own low voice falls sweetly
On thy lover's listening heart!
But the priest's words are ended,
And the orisons are told,
While the links of love have blended
In one chain of precious gold.

Would that I were near to bless thee
And to breathe one earnest prayer;
Would that I too might careen thee,
As the friends who mingle there.
But, alas! my lips would falter,
Ere they breathed one tender tone;
And mine eyes would stain the altar—
Stain with tears the altar-stone!

EVENING BULLETIN.

WEDNESDAY EVENING, AUG. 8, 1885.

The coroner was actively employed during the whole day yesterday, discharging his official duties faithfully and satisfactorily, but some parties have evinced impatience because he did not attend promptly to all the cases reported, which he could not possibly have done. Other officers were suggested, and in one instance a magistrate undertook to discharge the duties of coroner. Now this is all wrong. The coroner is the only officer authorized to hold inquests, unless absent from the county or unable to attend.

It should be remembered that the cases now under investigation are of a very different character from those usually presented to him.

THE HEBREW MISSIONARY.—This is a small book made up of a series of essays on the book of Jonah. These essays are written with great beauty of style, and the work is one which will interest and instruct the reader. The writer has so handled the subject as to invest the remarkable prophecy by Jonah of the fall of Nineveh with surpassing interest. The Hebrew Missionary is edited by Thos. O. Summers and published at Nashville for the Methodist Church South, by E. Stevenson & F. A. Owen.

We learn from the San Antonio Ledger that on the 19th ult., John S. Shehan, late clerk in the U. S. Quartermaster's Department in that city, was arrested and held to bail in the sum of \$10,000 on a charge of larceny of an amount exceeding \$9,000. There are two minor charges against him, on each of which he was held to bail in \$100.

The coroner held the following inquests this morning. These persons were wounded in the riots on Monday night:

Dennis Riordan, aged about 34, keeper of a feed store in Quinn's row, second door above Eleventh, on Main; shot in the chest and thigh; died Aug. 8, at 6 A. M.

Verdict, came to his death from the hands of unknown persons.

John Chevers, aged 31, living on the corner of Eleventh and Main; shot in the abdomen; died Aug. 7.

Verdict, came to his death from the hands of unknown persons.

TYPE-SETTING MACHINE.—The editor of the Montreal Gazette is in Paris, looking at the sights in the great exhibition there. He writes as follows:

The exhibition is most complete now, and is admitted to be superior to the London exhibition of 1851. A Western editor and myself have returned from examining a type-setting and distributing machine. It does its work correctly and quickly, and will, I have no doubt, supersede hand-setting. Though it looks complicated, it is really a very simple construction, and in eight or ten minutes I learned to set by it. I could set this up in about an eighth of the time I take to write it. I fear, however, I shall be unable to give you a description which will be intelligible to your readers. The type, instead of being thrown into the boxes in a case, as for hand-setting, are placed in grooves of about three-quarters of an inch in depth, separated from each other by brass rules like column rules. They require to be set up in these by hand before commencing to compose. Then if you want a letter you touch a key like that of a piano, which tosses it into another inclined groove in which it slides down a certain distance, when it is lifted upright by a jerk from a crank—so the types are carried on until your line is set up, when you touch a spring and they are dropped into a galley below, which moves along sufficiently at the same time to receive the next line. So it goes on till the galley is full, when it is removed to be proofed and placed in the form. In distributing, the reverse action is produced. There can be no longer a doubt that, with some slight modifications, the machine will succeed. Steps will immediately be taken to secure a patent in Canada and the United States.

AMERICAN IRON PURCHASED FOR THE IRON MOUNTAIN RAILWAY.—We are glad to learn that the Hon. Luther M. Kennett, president of the Iron Mountain (Mo.) Railway Company, has made a contract at advantageous rates with Messrs. Wood, Morrell, & Co., of the Cambria Works, at Jamestown, Pennsylvania, for nine thousand tons of rails, to be manufactured at their works and delivered on the line of the road in Missouri, between the 1st December, 1885, and 1st July, 1886. This rail is to weigh 62 pounds to the yard, and the quantity contracted for is sufficient for the entire road to Pilot Knob. The works at which this iron is to be manufactured are among the most extensive in the United States; the parties in interest are in every way responsible, and knowing the quality of material, perfection of machinery, and skill of the workmen engaged, we have no doubt that the iron will be of very superior quality. We are glad to see some little attention is being paid to the question of interest in the purchase of iron; we refer to the quality. The desire to get a new road ironed, heretofore, has led to the purchase of many cargoes of inferior foreign iron at a high cost, when it would have been true economy to have waited somewhat for, and paid a handsome advance for American iron.

An Interesting Trial.—A singular trial has just terminated in the Oneida circuit court of New York. It is that of Emily C. Day vs. two brothers named Roth. By the testimony adduced it appears that Volkert Roth wooed and won the heart of Miss Day, in England, which is her home, and formed an engagement of marriage with her. She had about \$2,500 in money, which Volkert persuaded her to entrust to his keeping, in order that he might come to America and establish himself sufficiently to enable him to return and marry her, he engaging to pay interest on the sum regularly. For a time he fulfilled this latter stipulation, but finally endeavored to get rid of the marriage and the obligation to pay the money, by representing to Miss Day that he had failed in business. He had also managed to mix up his brother with the affairs so much that it was a question which had the property. Miss Day, getting alarmed for her little fortune, came to the United States to hunt her faithless swain. She found him at Utica, N. Y., where he had bought, with his brother, the museum, and was carrying it on as a place of entertainment. She sued them both, and claimed the museum in part payment of the money due her. After a tedious and protracted trial, the jury has rendered a verdict for the plaintiff of \$8,435 25, being the full value of the museum we presume. The money taken from Miss Day constituted all the property she had in the world.

The cholera is said to prevail to a considerable extent in Hopkinsville. Some twelve deaths had occurred up to our last accounts.

ARRIVAL OF THE NORTHERN LIGHT. CALIFORNIA AFFAIRS.—The steamship Northern Light, arrived last evening in 6 days and 19 hours from San Juan, with 413 passengers and \$940,035 on freight, from San Francisco, July 16, per steamship Uncle Sam—making the passage from San Francisco in the unprecedented short time of 19 days and 20 hours.

The route is perfectly healthy, there having been no sickness of any kind during the voyage. The mines in California are yielding better than for several years past. Gold in large quantities has been discovered near Puget Sound.

[From the Alta California, June 16.]

SUMMARY OF NEWS.—A dispute occurred on the 1st of July, between Mr. Samuel Hermann, of La., and now residing in this city, and M. Dillon, the French Consul. M. Dillon having written some offensive communications to his government respecting the French residents of California, the subject was taken up by Mr. Hermann, and the Consul refusing to explain, he was slapped in the face by Mr. Hermann. A duel between the parties was anticipated but did not transpire, there being a disagreement respecting the weapons. Mr. Hermann, being the challenged party, chose small swords, to which the friends of Mr. Dillon objected, on the ground that he did not understand their use, and so the matter rests. The French residents are anxious that their Consul, who is a member of the Legion of Honor, shall avenge the insult he, as well as the French nation has received.

The city was thrown into great excitement on the evening of the 12th inst., by the rumor that Messrs. A. A. Cohen, late receivers of the assets of Adams & Co., and L. C. Woods, a member of that firm, had been charged with frauds to the amount of \$400,000, by Judge Chambers, of the late firm of Page, Bacon, & Co. In an affidavit of Judge Chambers, he alleges that the firm of Adams & Co. have been engaged for the last four years in palming off inferior dust upon the firm of Page, Bacon, & Co.; that a regularly organized band of disguised accomplices has been maintained in the various mining districts of the interior where gold dust is bought and sold. The document is lengthy and to the point. The complainant brings as witness, H. A. Whiting, Esq., and James King, a leading banker of this city. The defendants have been held to bail in the sum of \$200,000 each, and an order of arrest issued from the 12th District Court. They have published a charge promising to refute these charges.

Duels are becoming again fashionable. Two occurred on the 12th, one in the vicinity of the Mission Dolores, between two French merchants, and another at Contra Costa, also between Frenchmen. The weapons were small swords in both instances. M. Saulnier, a wine dealer, one of the parties, was dangerously wounded in the abdomen.

The weather in the interior continues to be excessively warm. At the fork of the Cosumnes river, for instance, in El Dorado county, the mercury stood at 120 deg. in the shade. Other remarkable statistics of the heat are recorded. A desperate fight occurred on the 9th inst. at Cave City, and another at Calaveritas, in the interior, in which three men were killed, and the wounding of Justice B. ems in Cave City. Agricultural affairs throughout the State have suffered from grasshoppers. They are now disappearing.

The rust has injured the wheat in some of the agricultural districts. From the mines, all accounts agree in pronouncing the present one of the most successful years since the discovery of the gold. The number of workmen is steadily increasing, and the yield will probably exceed that of any other year in the history of California. The State is generally healthy.

TERRIBLE CALAMITY—Fire and Loss of Life.—About 10 o'clock last night, a fire was discovered breaking out of No. 53 1/2 Chatham street, occupied on the first floor by Isaac Jacobs as a clothing store, and the upper part as a residence for his family, consisting of Mrs. Jacobs, four children, Mrs. Hersch, and one child, Mark Seaman, a cutter, and an errand-boy, who were sleeping in the building at the time. The fire had made considerable progress before the alarm was given, and by the time that the firemen arrived the whole building seemed destined to be destroyed.

The first notice which was given of these being persons in the building was by the cutter, Mr. Seaman, who jumped from the rear third-story window, after having been severely burned about the head and arms. Although much injured, his first words were: "There are more behind me."

Every effort was immediately made to rescue them. Mrs. Jacobs and her infant, three months old, were first taken out, the former much burned about the face, breast, and arms, the latter but slightly.

The child of Mrs. Jacobs, four years of age, was taken out but slightly burned, but her two children, one three years and the other two years, were burned completely to a crisp. They were lying in the same position, on their backs, with their little arms and feet stretched in the air as if having died in the most excruciating agony. They were taken to the Fourth ward station-house. The errand-boy jumped out of the window, being slightly burned and injured in the fall.

Mrs. Hersch and child, a girl four years of age, were taken out severely burned, and were taken with the others injured to the City Hospital by the police and firemen, where every attention was paid them.

Mr. Jacobs was not at home at the time, and did not arrive until after all the inmates had been taken out. Words could hardly depict his appearance, when told that his two children were dead.—N. Y. Sun.

An Incredible but True Story.—During the freshest, a little more than a month since, a cow belonging to Adam Carson, near this town, was carried into the flume of Messrs. Austin's oil-mill. She was missed on the day of her disappearance, and thorough search was made for her on that and several subsequent days without success. She had never been known to stray away; she was young and fat, and the conclusion was that she had fallen into the hands of a drover. The mill was not running. A day or two since it was entered to make repairs. The cow was found shut up in the flume, wasted almost to a shadow, with scarce strength to move her body, still alive. Nourishment was given her, a little at a time, and she seems now in fair way to recover. In this sorrow, not only a numerous body of relatives and friends both in and out of Woodford, from whose midst he was taken, but all whose privilege it was to know him, will deeply participate. This event has fallen with crushing force upon his bereaved and heart-stricken widow, and has thrown a gloom over our social circle, which will not soon dissipate. He devoted himself to the peaceful and quiet pursuit of agriculture, in which he was hardy to excel. He was prompt in the fulfillment of his engagements, a steady and generous friendship marked his conduct toward those whom he esteemed, whilst an expanded benevolence toward all mankind prompted him to continuous and unostentatious acts of charity. In his intercourse with men his bearing was honorable and dignified, with his more intimate friends social and affectionate; in the family circle, kind, affectionate, and instructive.

Although he did not connect himself formally with any church, no one had a greater reverence for the Bible and the Christian religion than he had. His remains were attended by the Odd Fellows fraternity, and a large concourse of relatives and friends to their final resting place. T. H. R.

Young, but Very Cunning.—A week since, just as the train from Boston was starting from East Albany, a lad of about 16 years of age made request, for some plausible reason, to ride in the baggage car. Leave was given him.

On the arrival of the train at the depot, a lady passenger unable to find her trunk, containing valuable clothing and jewelry. Among the passengers who put up at the Stanwick, procuring a room, was the same lad who had ridden in the baggage car. He ordered his trunk up, and subsequently borrowed keys of several persons to open it with, as he had lost his own. After remaining a day or two he left, without paying his bill, or taking his trunk. On Saturday inquiry was made at the hotel by the agent of the Boston road, who had been on the search for the lady's baggage aforesaid, if any stray trunk was there; this one was shown, and on being opened turned out to be the trunk searched for. It contained some \$500 worth of clothing and valuables; among the latter was a costly diamond breastpin. The young rascal had cut the check off while in the baggage car, and substituted another, by which, on reaching the depot, he was enabled to claim it. He had opened the trunk, but the jewelry escaped his search, and the female apparel he did not know what to do with. It was a shrewd trick for one so young, and foretells a criminal career.

Cod Liver Oil,

FOR CONSUMPTION, SCROFULA, &c.

THE late firm of Rushton, Clark, & Co. being dissolved by the death of W. L. Rushton (the only Rushton ever connected with the firm), THEIR GENUINE COD LIVER OIL will in future be prepared only by H. E. MORRISON, & CO., surviving partners and successors. It was Mr. CLARK who went to Newfoundland to superintend its manufacture, and he is the only Druggist who ever went from the U. S. to that purpose, and as he will continue his supervision of that branch of our business, we will warrant our OIL PURE and GENUINE. As success in its use depends upon its purity, we have had it analyzed by H. E. MORRISON, & CO., or H. E. MORRISON, & CO., over the cork of each bottle. Hundreds of persons who have used the Oil of other makers without success have been restored to health by the PURE OIL of OUR MANUFACTURE. We are particularly desirous to specify H. E. MORRISON, & CO., as it was Mr. Clark and not Rushton who has superintended its manufacture, and since Mr. Rushton's death there has been a Rushton Oil introduced which is not in any way connected with Rushton, Clark, & Co., the only representatives of that firm being Sold by Wilder & Brother, Wilcox, Starbird, & Smith, Lindenberger & Co., R. A. Robinson & Co., J. S. Morris & Son, J. R. Montgomery & Co., Bell, Talbot, & Co., Sutcliffe & Hughes & Morris, and by druggists generally.

CHEAP EASTERN PIANOS.

With a view to lessen the number of Pianos to be sold at our auction sale on the 24th day of May, and thereby save commissions, we still offer the remainder of our Eastern stock of Pianos at prices less than the original wholesale factory cost. Every instrument warranted. Persons desirous of purchasing are invited to examine this stock, as we are convinced that a more favorable opportunity will never be afforded of getting these instruments. The Pianos are from the factories of Chickering & Co., and J. C. Fisk, New York, and L. Gilbert, Backus & Co., and Webb, Peters & Co., Boston.

LATEST NEWS.

FATAL AFFRAY.—We learn from a reliable source that on Monday, July 23, a fight came off in the Mississippi Bottom between a man and woman, which resulted in the death of the woman on the Wednesday following. So far as we have been able to learn, the circumstances are about these: It seems a Mrs. Collier went to the well of one Mr. Honberger for the purpose of getting water. Mr. H. ordered her out of his enclosure; she obtained the water and went away, procured another bucket, armed herself with a knife and went for more water. While in the act of drawing it from the well, Honberger approached her for the purpose of forcibly ejecting her from his inclosure, when she drew the knife from her bosom and inflicted seven severe wounds, which will probably prove fatal; he then wrested the knife from her and inflicted the fatal blow which terminated in her death on Wednesday.

We will not comment upon this horrible tragedy. Suffice it to say, it is brutal in the extreme, and we hope we may never be called on to record its like again.—*Jonesboro (Ill.) Whig.*

STYPTIC.—A young man named John Barne, aged 17 years, bled to death on Monday morning in Buffalo from the effect of a tooth which had been extracted some days previous.

How easily his life might have been saved by an application of a styptic; one of the best and most easily-obtained is gunpowder. Let it be pulverized and laid upon lint so as to get as much as possible in the cavity of the tooth, held in by the wad of lint or cotton. By renewing the application two or three times relief is rendered almost certain. We have never known a failure, and have seen it applied to some desperate cases.—*N. Y. Tribune.*

Reported for the Bulletin.
ARRIVAL OF THE BALTIC.

New York, Aug. 8.
The Baltic arrived this morning, at 6 1/2 o'clock, with Liverpool dates to the 28th.

The news from the seat of war is not very important.
It is rumored that Gen. Simpson and Omar Pacha have resigned their commands.

The French continue to approach Malakoff, but there have been neither sorties nor assaults on either party.

The positions occupied by the allies and the Russians in open field are unchanged.

The British fleet in the sea of Azoff has destroyed the bridge of boats at Genitch without incurring any loss.

The operations in the Baltic have been unimportant.
Preparations for a campaign on the Danube continue.

The Barhi Basourkas at Constantinople had mutinied and committed great excesses.

A formidable insurrection has occurred among the Arabs in Tripoli.

The Russians remain near Kars, but have not invested the city.

The French loan has been all taken.

Uneasiness in Spain has been mostly allayed.

The British ministry have made a narrow escape from defeat on the Turkish loan bill, but will be able to retain their positions. The bill is progressing.

Latest.—The Russians made a sortie on the 24th of July, but were repulsed. Loss not mentioned in published dispatches.

It is rumored that a secret expedition is preparing, which is to attempt to force a passage into Sebastopol harbor at the same time that a grand assault will be made by the land forces.

Commercial.—Brown & Shipley quote an advance of 2s 9d in white corn. Yellow and mixed corn advanced 16d per quarter. Market closed steady on Friday. Flour—same circular quotes western canal flour at 40s 4d; Ohio 43s. White corn sells at 44s, the supply being scarce; yellow corn is quoted at 38s 6d@39s; mixed corn 38s; 6d.

Liverpool, July 28.—The circular of Richardson, Spence & Co. quotes provisions severely unchanged. Lard advanced 6d; and market firm. Brokers' circulars quote pearl ash at 38s and pot ashes at 32s 6d@33s. Naval stores quiet.

London, July 27.—Messrs. Baring & Bro.'s circular quotes Iron as active; Welsh rails command £7 15s@£8 on shipboard in Wales. Welsh bar iron not quoted. Scotch pig iron is quoted at 75s 6d for mixed numbers on the Clyde. Sugar active and improved rates. Coffee firm. American stocks active at unchanged prices except for railway securities. Consols for money closed at 91.

Vienna, Thursday.—Gen. Tottleben, commander at Sebastopol, is dead, and Melnikoff succeeds to the defense of the place.

Trieste, Thursday.—The Russians suddenly withdrew, after approaching Kars and firing a few shot into the town. They had dispersed some Turkish detachments near Bayard and taken them all prisoners.

Gen. Muravoff, it is said, intended to attack Erzeroum at the same time that he invested Kars. Twenty thousand Turkish troops were on their way to reinforce Erzeroum. A letter from the latter place states that the Russians had occupied the village of Genikerr, which contained large stores and provisions for the allied army at Kars. The Turks are completely blockaded at Kars. The Russians are occupying the entire plain.

New York, Aug. 8, M.
The news from Louisville caused a little excitement here. Some parties talked of meeting in the park to consult upon the matter. It is hardly probable that so mischievous a measure will be carried out.

Three cases of suicide occurred here yesterday. There appears to be a mania for suicide just now.

Serious trouble is brewing among the Masons here. The Grand Lodge, rumor says, has split in two, and a manifesto from the seceders is said to be forthcoming. The merits of the quarrel have not been divulged to outsiders yet.

The steamer Atlantic sailed to-day at noon. Among the passengers is Mike Walsh, who goes abroad for the benefit of his health.

SPRINGFIELD, Aug. 7.
The business committee of the K. N. State convention reported a platform allowing protestant foreign naturalized citizens to become members of the Order. It protests against the importation of foreign paupers and criminals, and insists upon the restoration of the Missouri compromise; asserts that slavery is sectional and freedom national; denounces the national Administration as hostile to these principles, and recommends the fusion of all parties to overcome it.

CINCINNATI, Aug. 7.

The cornice of a new building in process of erection for the Ohio Life and Trust Co. fell at 2 o'clock this evening, crushing to death six persons and injuring others—two so severely that their recovery is despaired of. The Last Great American Novel.
THE MISSING LINK, or THE AVERAGE, by Emma D. E. N. Southworth, author of "The Lord's Secret," "The Wife's Victory," "Curse of Clifton," "The Discarded Daughter," "Retribution," &c. Complete in one volume of 628 pages, bound in cloth, \$2.25, or in two volumes, paper cover, for \$1. Read the following opinions of the press:
"A story writer this lady has no superior. She ranks as the first female author of America, and deservedly so. Her works have obtained the highest reputation, not only as works of fiction, but for the power and beauty and fascination which she weaves into every page of her romances. Her descriptions of character and incidents are life-like and vivid, and always charm and delight the reader. We predict for the 'Missing Link' not only a flattering reception, but a very extensive sale."—[Banner, Clarion, Pa.]
